

National Impaired Driving Prevention Month

During National Impaired Driving Prevention Month, we recommit to stopping avoidable traffic deaths and keeping America's roadways safe by driving sober.

In December 2022, **893 crashes** occurred as a result of impaired driving

39	Crashes were fatal	328	Resulted in personal injury	526	Resulted in property damage
-----------	--------------------	------------	-----------------------------	------------	-----------------------------

Driving impaired by any substance is dangerous as it can affect judgment, coordination, and reaction time, especially when operating a vehicle.

HAVE A PLAN

Download the **“Have a Plan”** app for tools and information about getting a safe ride.

Funded by the National Highway Traffic Safety Administration with a grant from the New York State Governor’s Traffic Safety Committee
